

WAUKEGAN NATIONAL AIRPORT

UGN

Welcome to Waukegan Regional Airport Newsletter!

RENOVATION NEWS!

The Periodic Project Meeting was held Thursday, August 29, 2013. Work remains within the Stage 1A and 1B areas. Paving began Friday, August 30th. Please expect haul trucks moving to and from the work site throughout the week.

All work for the week of September 2nd will be in Stages 1A and 1B. Underdrain installation began Tuesday and repairs to the existing pavements to remain, will be made. Weather permitting, it is expected that Runway 14-32 will reopen to traffic on Friday evening, September 6th.

Work in Stage 2A and 2B is expected to begin on/about September 12. Stage 2C - which requires the closing of Taxiway A at its intersection with Runway 14-32 - is not currently scheduled. Updates will be furnished. Work that requires the NIGHTTIME ONLY closure of Runway 5-23 is not anticipated until October. The full project Staging and Safety Plan is shown below.
